

1 **In The Specification**

2
3 On Page 5, the paragraph that begins on Line 15 should be amended as follows:

4
5 On the palm of the hand 31 of each of the arm parts 30 is attached a ~~Velcro~~ hook and
6 loop tape fastener 50. Similarly, on the sole of the foot 41 of each of the leg parts 40 is attached
7 another ~~Velcro~~ hook and loop tape fastener 50. Consequently, the hand 31 of one of the arm
8 parts 30 can be attached to the hand 31 of the other of the arm parts 30 so that the toy can hang
9 on an object, such as a rope or a bar, or the toy can hug another toy. Similarly, the foot 41 of one
10 of the leg parts 40 can be attached to the foot 41 of the other of the leg parts 40 so that the toy
11 can hang on an object, such as a rope or a bar, or the toy can hug another toy. Alternatively, the
12 hands 31 of the arm parts 30 can be attached to the feet 41 of the leg parts 40, respectively, so
13 that the toy can hang on the rope or the bar, or the toy can hug another toy.

14
15 On Page 7, the last paragraph which begins on Line 24 and continues to Page 8, Line 5 should be
16 amended as follows:

17
18 The long arm parts 30 of the transformable toy are attached to each other by means of the
19 ~~Velcro~~ hook and loop tape fasteners 50 on the soles of the feet 41 of the leg parts 40. As a result,
20 the transformable toy can hang on a bar as shown in Fig. 3a. In this manner, the decorative
21 effect of the transformable toy is increased, and the aesthetic sense of the transformable toy is
22 also increased.
